Re: Fire Insurance Claim

Dear Josh;

I hired The Greenspan Company/ Adjusters International after I suffered a fire loss to my commercial building. I was somewhat apprehensive in doing so because I was not aware of your kind of services before I had a fire. I thought the insurance company would do everything.

I am very happy I hired The Greenspan Co. /Adjusters International to assist me with my claim. Looking at the damages at first we had no idea we were looking at over a million dollars in losses. Your expertise in knowing of what to look for and understanding our policy really helped us to get a great and just settlement. I really would not have even known what to claim without your guidance. There was no doubt that your team's extensive knowledge and skill led to my successful recovery.

I highly recommend anyone with a fire loss hire The Greenspan Co. / Adjusters International to assist them with their claim. If you ever need a reference please free to reach out to me.

Thank again.
